Summer Innovation Learning & Community Service Program for Youth

Creating impact in communities today

while nurturing the resilience and collaborative problem-solving talent of tomorrow!

IMAGINE CORPS is an innovation learning and service program for teens —our future impact makers. It's designed to provide 21st Century facilitative leadership, creative problem-solving, collaboration, and resiliency skills they need to help them succeed in school, work, and life. It also affords them a chance to use these skills for immediate impact in **the community with local island non-profits – helping them create the new solutions and engagement they need.**

- **Innovation Learning & Invention (12 hours)** for rising high school **students**
 - Experiential training and practice as **CREATIVE PROBLEM-SOLVERS and COLLABORATIVE INNOVATORS.**
 - Application of skills in **breakthrough sessions for local community non-profits** ---helping them create solutions to key challenges while accelerating your own learning.
 - Conducted **Live in-Person or Virtually (Zoom)**– w/ interactive hands-on exercises.
 - Led by seasoned instructor with **more than 20 years** in innovation facilitation, training, and coaching.
- Follow-up small group **coaching** to integrate and activate tools personally.
- Follow-up **concept refinement lab** with students and non-profits to evolve and advance ideas into action.

Who is it for:

- **Students - high school students** - who want to make a difference in their community while receiving skills and experiences that will give them an edge in all they do.
- **Community Non-Profits** who need a youthful boost of energy and ideas to address a real challenge or opportunity facing their cause and/or the worthy constituencies they serve.
- **Supporters & Sponsors** who want to aide youth while at that same time bolstering their communities in demonstrable and noteworthy ways.
- **Mentors of Innovation & Creative Problem-Solving** who want to pass on to future-generations the transformative impact this body of knowledge can have.

Your Instructor: Joe Gammal of Hopkinton, MA is founder of Imagine Corps and Managing Partner of Synecticsworld, Inc, a pioneer in the field of creative group problem-solving, innovation, and change. Joe is a 20-year innovation coach, facilitator and trainer, helping leaders ignite the ingenuity within teams. He is an adjunct professor of creative collaboration and innovation, and, formerly, a new product marketing champion at Apple, Hasbro, and Arthur D Little.
